

PATENT APPLICATION  
Attorney Docket No. 04F1738

**REMARKS**

The Examiner is thanked for the careful examination of the application.

The title of this application has now been changed to more accurately describe the claimed invention.

The originally filed abstract has also been replaced with a new more descriptive abstract.

A terminal disclaimer is included to overcome the double patenting rejection over U.S. Patent No. 6,805,608.

All claims have been cancelled and new claims 21-34 have been added. The Applicant believes that these new claims are allowable, and early notification of same would be appreciated.

Respectfully submitted,

David R. Forbes, et al.
